

Nonincendive, I.S. & general
purpose compact, modular on/off
valve monitor

Stonel™ Eclipse™ series EN/EG

Eclipse™

Compact and modular with solid state reliability

Stonel Eclipse features dual solid state sensors with optional communications neatly integrated into a sealed module. The function module and trigger/indicator attach quickly and conveniently to standard VDI/VDE 3845 (NAMUR) actuator accessory mounting pads. The Eclipse series is available in nonincendive and intrinsically safe versions (EN) for hazardous areas and in a general purpose completely sealed micro-connector version (EG).

Enclosure options

EN: Nonincendive with integral wire termination area

- Suitable for all hazardous areas.
- Rated for Type 4, 4X, 6 (intrinsically safe and nonincendive rated: IP67).
- Additional termination points and dual conduit entries eliminate junction boxes for solenoid valve termination.
- Convenient wiring compartment and pre-labeled terminal strip enables rapid installation.

EG: General purpose with convenient micro-connector wiring

- Available with additional built-in connector for solenoid termination.
- Micro-connectors with potted and sealed enclosure eliminate any threat of moisture contamination in wiring.
- Electronic module integrated permanently into enclosure.

Features

1. **Red/green visual indicator** boldly displays valve status, and coordinates with red/green LEDs.
2. **Direct attachment** to ISO/NAMUR mounting pads with simple mounting kit (sold separately).
3. **High intensity red and green LEDs** indicate electronic switch status to confirm electrical operation.
4. **Sensor triggers** are adjustable in 3.5 degree increments through 360 degrees for precision and flexibility.
5. **Submersible** and capable of high pressure washdown, Eclipse sensors and electronics are fully sealed to eliminate hazard threat and corrosion problems.
6. **Extremely compact, rugged enclosure** integrates position sensors, communication, electronics, and power outputs for solenoids.
7. **All mechanical parts** are made of polycarbonate or stainless steel for corrosion resistance and durability.

Triggering and visual indicator

Red and green visual indication is viewable from 360 degrees around the automated valve and from above at distances up to 70 feet. The yellow flow line indicator is also available, which is viewable from all angles at a distance up to 30 feet.

The solid state inductive sensors are activated by stainless steel targets embedded into the visual indicator drum. Open and closed targets may be independently adjusted in 3.5 degree increments.

Flow line option

Specifications

Materials of construction

Housing	Lexan® polycarbonate
Drum components	Lexan® polycarbonate
Fasteners	Stainless steel
Triggers and coupling	Stainless steel
Quick connectors	Stainless steel
Operating life	Unlimited
Temperature range	-40° C to 80° C (-40° F to 176° F)

Warranty

Dual modules	Five years
Mechanical components	Two years

Ratings

Nonincendive (Class I and II, Div. 2)	EN models*
Intrinsically safe (Ex ia, Zone 0 or Class I and II, Div. 1)	EN44*
Enclosure protection	
Type 4, 4X and 6	All models
Ingress Protection 67	All models
Approvals*	See manufacturer's website

* Only models listed on valmet.com/flowcontrol website are approved per specific rating.

Sensing and communication

The Eclipse offers incredible value and space efficiency. Communications, position sensing, power outputs, and auxiliary inputs are sealed in the function module. Select from NAMUR sensors, SST switching, or AS-Interface, or DeviceNet™ communication terminals. All are fully solid state and sealed.

EN features a removable, fully sealed dual module to facilitate quick, convenient maintenance and wiring.

Switching and sensor specifications

SST switching sensors (33, 34)

Configuration	(2) SST solid state sensors (2) Wire terminations for one solenoid
Operation	Select either NO (33) or NC (34) models
Maximum current inrush	1.0 amps @ 125 VAC/VDC
Maximum current continuous	0.1 amps @ 125 VAC/VDC
Minimum on current	2.0 mA
Maximum leakage current	0.5 mA
Voltage range	24 - 125 VAC 8 - 125 VDC
Maximum voltage drop	6.5 volts @ 10 mA 7.5 volts @ 100 mA

Wiring diagram (33 & 34)

SST

Valve Communication Terminal (VCT) specifications

AS-Interface (96)

Configuration	(2) Discrete sensor inputs (2) Auxiliary discrete inputs (2) Power outputs (solenoids)
Maximum current	160 mA, both outputs combined
Auxiliary inputs	24 VDC @ 2 mA (self-powered)
Output	4 watts @ 24 VDC both outputs combined
Outputs, voltage	21 - 26 VDC
Configuration code	ID=F, IO=4; user defined (4DI/2DO)
AS-i version	3.0
Devices per network	31

Wiring diagram (96)

NAMUR sensors (44)

Configuration	(2) NAMUR sensors (EN 60947-5-6; I.S.) (2) Wire terminations for one solenoid
Operation	Normally closed NAMUR sensors (solid state)
Voltage range	5 - 25 VDC
Current ratings	Target on I<1 mA Target off I>3 mA

Wiring diagram (44)

NAMUR

AS-Interface VCT with extended addressing (97)

Configuration	(2) Discrete sensor inputs (2) Auxiliary discrete inputs (1) Power output (solenoid)
Maximum current	100 mA
Auxiliary inputs	24 VDC @ 2 mA (self-powered)
Output	2 watts @ 24 VDC
Output, voltage	21 - 26 VDC
Configuration code	ID=A, IO=4; user defined (4DI/1DO)
AS-i version	3.0
Devices per network	62

Wiring diagram (97)

Valve Communication Terminal (VCT) specifications

DeviceNet™ (92)	
Configuration	(2) Discrete inputs (open and closed) (2) Power outputs (solenoids) (1) 4-20 mA auxiliary analog input, 10-bit resolution; no additional power source required
Transmission rate	Software selectable 125K, 250K or 500K baud
Messaging	Polling, cyclic and change of state
Outputs	4 watts @ 24 VDC outputs combined
Outputs, voltage	24 VDC (with input voltage ranging from 10 - 24 VDC)
Other features	Predetermined output fail state
Wiring diagram (92)	<p>The wiring diagram shows a 12-pin terminal block. The connections are as follows:</p> <ul style="list-style-type: none"> V+ (Terminal 1) CAN H (Terminal 2) SHIELD (Terminal 3) CAN L (Terminal 4) V- (Terminal 5) Ain- (Terminal 6) Ain+ (Terminal 7) OUT1- (Terminal 8) 24 VDC+ (Terminal 9) OUT2- (Terminal 10) <p>* 4-20 mA transmitter not included</p>
